

FACT SHEET

ELECTRONIC AMUSEMENT AND GAMING MACHINE TESTING

Build compliance with the leading experts in global testing and certification

Win every time with Intertek.

Intertek's quick turnarounds on safety testing, breadth of services, and leadership in product performance and benchmark testing are just a few of the reasons why the electronic amusement and gaming industry relies on us for global testing, inspection and certification.

Faster Compliance, Faster Certification, Faster to Market

With a global network of laboratories and accreditations for every country you wish to enter, we can ensure the fastest route to market.

Our broad scope and expansive testing capabilities provide a full range of certification labels and schemes to certify all around compliance for electronic amusement and gaming machines. With multiple accreditations from all over the world, Intertek delivers the engineering resources to streamline EMC compliance and energy efficiency.

For safety certifications, we offer our premiere ETL Listed Mark. With over 80,000 product listings, ETL is recognized as the fastest growing product certification mark in North America. We offer shorter queue times, immediate

response to your inquiries, and testing expertise across a global network of laboratories.

Intertek Provides the Testing Solutions that Manufacturers Need Most

- Electrical Safety Testing
- EMC Testing
- Energy Storage and Battery Testing
- Energy Efficiency Testing (North America, Europe, and Asia Pacific)
- Global Research and Certification
- RoHS Compliance Testing and Certification

Performance Testing with Intertek Builds Your Competitive Edge

Manufacturer goals and market objectives dictate which performance testing services are best suited for your needs.

Intertek offers the following test options to enhance your product's market value:

- Accelerated Stress Testing (AST)
- Environmental and Durability Testing
- Failure Analysis and Materials Testing
- Performance Testing with Intertek's Quality and Performance Mark (QPM)
- Benchmark and Comparison Testing

ELECTRONIC AMUSEMENT AND GAMING MACHINE TESTING

Win every time with Intertek.

Intertek's quick turnarounds on safety testing, breadth of services, and leadership in product performance and benchmark testing are just a few of the reasons why the electronic amusement and gaming industry relies on us for global testing, inspection and certification.

ETL Listed Mark for North America

The ETL Mark is the fastest-growing safety certification mark in North America. We're an OSHA Nationally Recognized Testing Laboratory (NRTL) and we are accredited by the Standards Council of Canada (SCC).

CE Marking for the European Union

As a designated Notified Body (NB) and Competent Body (CB), we can test your product to EU Directives for CE Marking.

CB Scheme Testing

As a National Certification Body (NCB) and CB Testing Laboratory (CBTL), we will help you meet requirements of the more than 40 countries that participate in the CB Scheme. Intertek is the world's largest issuer of CB Scheme certifications.

Electromagnetic Compatibility (EMC) Testing

As a Notified Body under the EMC and RTTE Directives, and as a Certification Body for the FCC and Industry Canada, we can help bring wireless appliances to market and make sure that they comply.

RoHS Compliance Testing and Certification

We will assist you with RoHS compliance every step of the way – without adding significant cost or impeding innovation.
